Tejas Bhoite

+91 8010665294 | tejasbhoite20@gmail.com | LinkedIn | GitHub |MyPortfolio|GeeksForGeeks|Kodoli, Kolhapur|

TECHNICAL SKILLS

Programming Languages: C, C++, C#, JavaScript, Java, HTML, CSS
Web Development: React.js, Node.js, npm, Express.js, Tailwind
Databases: MySQL, MongoDB
Libraries: JWT, bcrypt, Mongoose
Tools: Git, GitHub, Postman, VS Code
Concepts: Object-Oriented Programming (OOP), RESTful APIs

EXPERIENCE

Software Developer Intern | 5TechG Lab LLP, Sangali   December 2024 - May 2025

- Developed interactive React components and optimized app routing using **React Router** across multiple projects to improve user navigation and flow.
- Integrated Redux for efficient state management and seamless API communication in complex apps like the Visitor and Cylinder modules, reducing state-related bugs by **40%**.
- Implemented dynamic data updates, reusable UI components, and advanced table formatting to enhance UX and maintainability.
- Collaborated with cross-functional teams to build features like tax invoice generation and automated email workflows using **Node.js** and Mailchimp.

EDUCATION

Rajarambapu Institute of Technology   Urun-Islampur
Bachelor of Technology in Computer Science | CGPA - 7.72/10   Passout June 2025

Kodoli Highschool and junior college kodoli   Kodoli, Kolhapur
Higher Secondary Education (HSC) | Percentage - 88.17%   May 2021

RELEVANT PROJECTS

Food Cart App | *React.js, Node.js, Express.js, MongoDB*
- Developed a MERN-based food delivery app with modular architecture, improving code reusability by 35%.
- Implemented user authentication using JWT and bcrypt for registered users.
- Integrated Redux to manage state efficiently, reducing API call redundancy by 40%.
- Built and deployed RESTful APIs with Express.js and MongoDB on AWS, maintaining 99.9% uptime.

Travel journal | *React.js, Node.js, Express.js, MongoDB*

- Created a MERN-based Travel Journal app with a timeline interface, enabling users to explore travel stories chronologically.
- Implemented full-text search, date filters, and favourites, enhancing data retrieval speed by 40% for improved user experience.
- Built RESTful APIs with Express.js for journal entry management, tagging, and media handling
- Actively adding new features and optimising performance during ongoing development.

The AI Personal Desktop Assistant | *React.js, Python, MongoDB, Flask*

- Built the React.js frontend for an AI-based assistant with an interactive UI for voice commands and reminders
- Integrated Flask backend with MongoDB to manage user tasks, schedules, and preferences.
- Collaborated in a 4-member team, handling component structure and Git version control.

CERTIFICATE

- **The Complete 2024 Web Developer Certification:** Comprehensive training in HTML5, CSS, JavaScript, React.js, Node.js, and backend development
- **DBMS and SQL Certification:** Mastery of database management, SQL queries, and relational database design.
- **Programming in Java Certification:** Advanced proficiency in Java, including object-oriented programming (OOP), data structures, algorithms, and design patterns.

EXTRACURRICULAR ACTIVITIES

- **Playing Tabla:-** Demonstrates creativity, discipline, and focus
- **Exploring New Environments:** Enhances adaptability, cultural awareness, and problem-solving skills
- **Learning New Technologies**: I am passionate about staying updated with the latest tech trends
